

Communication with you is of special importance to us!

AGT ENGINEERING & OPERATIONS SERVICES is a pioneer group that improves and upgrades its services by anticipating your own needs and requirements.

The newsletter you receive informs you of all current projects as well as of the latest developments on topics that may interest you. We are beside you to implement targeted proposals and solutions tailored to your environment.

The AGT ENGINEERING & OPERATIONS SERVICES group is a leading player in the choice of those who want top total customer solutions.

We are delighted to present you with current issues or projects undertaken by the group.

SUMMER VACATIONS WITH ... PROJECTS!

Summer months are over, but the projects continue unabated. Indicatively, reconstruction of I-STORM network branches in Greece and Cyprus were completed, Elpedison's first branch in the country moved into operation and AGT undertook new projects such as construction and electromechanical works in the Eudap facilities, refurbishment of ELTA Courier headquarters for their relocation, the reconstruction of the central branch of the National Bank of Rhodes, the complete reconstruction of a building in the center of Athens for its conversion into Boutique Suites etc..

AGT EXTENDS IN THE MIDDLE EAST

AGT won the international tender for a project at Queen Alia Jordan International Airport for a multinational group, customer of ours. The project concerns the construction of its central store at the arrivals terminal, with fit-out works, civil, architectural and all the electromechanical installations. Our top experience in commercial projects and airport fit out projects, our proven credibility and our absolute commitment to timetables and safety rules as well as the ability to undertake international projects with the highly expertized AGT Airport Services Team, make AGT a strongly competitive contractor in the international demanding environment.

AGT & EMFASIS - 4 YEARS TOGETHER

In addition to its long-standing partnerships with its clients, AGT builds long-lasting relationships with organizations that supporting their work will enable it to contribute, create a social impact and become an example for those who have the potential to contribute to society and have not yet done so. One of these organizations is Emfasis, with which we have been measuring four years of joint venture, supporting its actions to provide immediate and effective solutions to the overall needs of our vulnerable and socially excluded fellow citizens.

AGT AT THE HIGHEST MOUNTAIN TOPS

AGT's staff participated in the Greek Mountaineering Mission last month, climbing the summit of Pisco mountain in Peru, part of the Andean Peruvian mountain range, at a height of 5.752 meters. In this way, we in AGT declare our concern about climate change and its impact on the environment and we draw together every action in this direction. We believe we can conquer the highest peaks respecting and protecting our planet.
