

Communication with you is of special importance to us!

AGT ENGINEERING & OPERATIONS SERVICES is a pioneer group that improves and upgrades its services by anticipating your own needs and requirements.

The newsletter you receive informs you of all current projects as well as of the latest developments on topics that may interest you. We are beside you to implement targeted proposals and solutions tailored to your environment.

The AGT ENGINEERING & OPERATIONS SERVICES group is a leading player in the choice of those who want top total customer solutions.

We are delighted to present you with current issues or projects undertaken by the group.

AGT GIVES FORM TO BIENNALE

SUPPORTER

Anyone who listens to the word of art now thinks of the Biennale, the most important artistic event of contemporary culture in the country, recognized by the greatest names in Greece and abroad. The 6th Athens Biennale, titled ANTI, goes one step further, pioneers even more, experiments, gives new impetus and hope amidst the difficulties that prevail that culture remains possible and is a key factor in the development that our country aspires to achieve. AGT supports the 6th Athens Biennale in the form of a sponsorship of the redevelopment of the premises housed this year until 9/12/2018 and as a group of companies that has pioneered the areas in which it is active, it is our great pleasure to support an event that is shared the same cornerstone.
