## **"ENGINEERING DAYS"**

---

AGT, supporting Students with Life Works, organized "Engineering Days", a special day for students of Polytechnic Schools.

The students attended a total of 8 lectures by expertised AGT executives, having the opportunity to grasp in practice the modern requirements of major engineering projects and the requirements that the market has from a junior engineer.

Given the company's awareness of the braindrain phenomenon, the International Development Director presented among others the opportunities and prospects for development in the Greek market.
